

PICKUP MAGIC BOX

This kit contains a ready-to-roll audio-guide tour. The MP3 sound files are already tagged and loaded on the Dataton PICKUP™ audio guide and the seven transponders, corresponding to the seven pictures, have already been assigned identity numbers.

CONTENTS

- 1 x PICKUP
- 7 x IR HOTSPOT TRANSPONDER
- 1 x PICKUP LANYARD
- 1 x PICKUP USB CABLE
- 1 x headphones
- 7 x pictures

GETTING STARTED

Charge the PICKUP

The PICKUP needs charging before use. Connect the USB cable to the PICKUP and the USB port on your computer. When the indicator on the top of the PICKUP shows a steady light, your audio guide is fully charged. Disconnect it from the computer and the USB cable.

Mount the transponders

Position the transponders next to the corresponding pictures. Make sure you don't place them too close together.

Attach the lanyard

Hook the shoestring lanyard on to the PICKUP. Tug it once to check it is firmly secured. *Please note that children wearing the lanyard should be supervised at all times.*

Plug in the headphones

There's a headphone jack at the base of the PICKUP. If you don't plug in the headphones, sound will be played through the audio guide's self-contained loudspeaker instead. Adjust the volume by turning the top of the PICKUP.

Point and click

Point the PICKUP at a transponder. Press the action button on the front of the PICKUP. The transponder will flash briefly as it exchanges information with the PICKUP. You'll hear the corresponding sound message on the PICKUP.
